**JOSEPH BODO & SON, Grocers**

BODO BLOCK, MAIN STREET,

DANIELSON

## The Wisdom of Buying Diamonds

During war times, when financial conditions are naturally unsettled, mercantile companies may fail and all sorts of formerly good investments may suddenly become worthless. It is wise to guard yourself against disaster. Invest your money in Diamonds. They are the safest investment you can find today. You can always sell them, or secure a loan on them, and there is not the slightest danger of them depreciating in value. Prices have been steadily rising for some time and importers tell us that they are liable to double before the war is over. Wealth cannot be condensed into any more convenient form than Diamonds, and whether you buy them for an investment or for use, they are a constant source of pleasure while in your possession.

We have a large and very handsome stock of Diamond Jewelry and as most of it was ordered a year or more ago we can offer you values which cannot be matched today. Take our advice and buy yourself one or two nice rings NOW.

## THE PREPARATION OF DIAMONDS

During next week we will give a window demonstration of the preparation of Diamonds, from the uncut stone. This will be an interesting and instructive exhibit. We invite you to inspect it.

**McEwen & Chapin**

DANIELSON, CONN.

## EDITORIAL

Persons who early established a habit of reading this page of special advertising were quick to discover that it contained many buying hints of value, and that the business houses represented are more than making good on their selling efforts.

With this issue comes mention of various articles that will be selling freely during the Fall season, and it behooves the prudent buyer to look carefully through the list of announcements that he may find offered at especially attractive prices some of the things he needs.

As has been said a number of times before, Danielson business men are ever alert for bargains that will tend to maintain the established reputation of Danielson as an excellent place in which to trade. Their concentrated effort has won them many loyal buyers in the past and will get them many more in the future, from all the surrounding territory.

Men's, Women's and Children's Clothing, Shoes, Hosiery, and many other articles of wear may be purchased at surprisingly moderate prices in Danielson this year if buyers will take the precaution to visit the firms that are represented on this page. This also applies to the offering of the business houses represented.

They are ready for the Fall trade. Carefully selected stocks are on hand, and the prices show, whether it be at the druggists, the jewellers, the grocers or the clothing and dry goods men, there is no effort to add "war profits" to the customer's buying bill. In this time of sky-rocketing prices Danielson business men are not engaged in profiteering, but are selling goods at only a legitimate margin of gain.

A buyer who wants to get his money's worth can do no better than to investigate the stocks of the men here represented.
